### **MPower Technologies and Moneris Solutions enter into a strategic business relationship.**

Toronto, ON – November, 2006 – MPower Technologies.com announced earlier today the formation of a strategic relationship with Moneris Solutions. MPower Technologies is a software leader for the mid-market making a sophisticated and powerful web portal technology. MPower makes it affordable for companies who want database integration, with simplified reporting and business intelligence and management tools, along with an integrated application development environment to provide on-line services for employees, customer and business partners. Moneris Solutions is an industry leader and Canada's largest processor of debit and credit card transactions. Moneris offers a "single point of contact" for VISA, MasterCard, American Express, INTERAC Direct Payment, and all Point of Sale solutions - from in-store to mobile wireless to e-commerce.

"We are extremely excited and proud of the partnership between MPower and Moneris," said Carolyn Tucker, the VP of New Business Development. "I believe the combination of Moneris's on-line credit card processing and MPower's portal technology will allow us to enhance the deliver of on-line services for both our new and existing customers. "We are also very excited that Moneris is now using the MPower Portal as the gateway for Moneris's business partner portal said Michael Janssen, President and CEO, "the scope of enhancement we bring to each other will provide more opportunities for our new and existing customers".

MPower Technologies has continued to grow and lead the charge for the mid-market for clients who want a streamlined solution that will help them manage their business more effectively, with enhanced on-line services for both their employees and customers. "Since our Oct. 2003 product release, we have been able to help a diverse range of clients, from the gaming and Insurance industries to service, government and not for profit organizations", said Carolyn Tucker, the VP of New Business Development. . "Now with the latest strategic step; the leveraging of the MPower Portal technology and the Moneris credit card processing expertise we will be a one stop shop for most companies who have a strategic on-line business initiative".
